Waterloo, ON

SUMMARY

Motivated and detail-oriented React Developer with intermediate-level expertise in building and optimizing web applications. Proven ability to independently manage projects, implement performance enhancements, and deliver clean, reusable components. I am skilled in leading development processes, integrating payment systems, and leveraging tools like Material-UI and Styled-Components. Adept at mentoring team members and driving projects toward timely, high-quality completion.

WORK EXPERIENCE

E-developers –Full stack developer

Feb 2023 – Nov 2023

- Optimized website performance, reducing page load time by 30%, enhancing user experience and overall efficiency.
- Successfully implemented intricate UI/UX designs, translating wireframes into fully responsive components with 100% pixel-perfect accuracy.
- Led a team of 4 developers to deliver a high-impact project within tight deadlines, ensuring smooth collaboration and timely delivery.
- Developed and maintained reusable React components, streamlining codebases and boosting development productivity by 20%.

OnGraph – React Developer

Sep 2020 – Sep 2022

- Led two key projects: one independently from start to finish, handling full development cycles, and another while mentoring and guiding junior team members to ensure successful delivery.
- Worked on complete project lifecycles, from initial planning and design implementation to deployment and post-launch optimization.
- Gained valuable exposure to React Native, contributing to mobile application development and broadening expertise in cross-platform solutions.
- Collaborated with designers and backend developers to create scalable and responsive user interfaces, achieving consistent performance improvements and seamless integration.

webcelixs – React Developer

Feb 2019 – Aug 2020

- Collaborated with senior developers to integrate RESTful APIs, ensuring efficient data handling and application functionality.

- Learned and implemented Redux for state management, enhancing the scalability and maintainability of web applications.
- Gained hands-on experience in React code integration, building reusable components and following best coding practices.
- Utilized web packages like Axios, React Router, and Formik to optimize development workflows and improve user experience.
- Worked with GitHub for version control, managing repositories and resolving merge conflicts effectively.
- Applied ESLint to maintain code consistency and reduce debugging time by adhering to industry standards.

EDUCATION

Conestoga College – Quality Assurance and Management

May 2024 – Dec 2024

Waterloo, ON

Conestoga College –Project Management

May 2023 – Dec 2023

Kitchener, ON

Shri Ram Swaroop Memorial University – Bachelor of Technology

Aug 2015 – May 2019

Lucknow, INDIA

SKILLS

Redux; EsLint; Axios; GitHub; Enzyme; Material UI; HTML; CSS; JavaScript; Styled Component; TypeScript;

CERTIFICATION

- React
- HTML
- CSS
